

Beau Einheit Receives the 2013 *"Spirit of Hope"* Award

Over a decade ago, former MCBC Executive Director, Dixie Goolsby was introduced to Give Kids The World and a relationship of trust, dedication and community service was born. Dixie's involvement did not stop at the completion of a large expansion at the village, she continued to inspire MCBC to remain engaged with GKTW Village, as well as other charitable organizations in Central Florida.

In order to continue Dixie's legacy, each year the MCBC presents the Dixie Goolsby "Spirit of Hope" Award to an MCBC builder recognizing the builder's dedicated service to the community. Dixie's spirit of service and commitment to the MCBC mission has inspired many to serve and it is in the spirit of giving and charitable service that on Tuesday, December 10, 2013 Phil Kean, President of the Master Custom Builder Council, presented the 2013 "Spirit of Hope" award to Beau Einheit, President of The Einheit Company. In addition to his charitable service to the MCBC, Beau was honored this year for his help and participation with the MCBC 'Monster House' project.

The Master Custom Builder Council believes that part of having a successful business must include service to others, and we are extremely proud to have builders like Beau Einheit as part of our membership. So, thank you and congratulations Beau, for all you do for the MCBC and your commitment to service in the community.
