Beau Einheit
2014
MCBC
Builder of the Year

Every year, the Master Custom Builder Council selects a builder that has helped to promote the ideals of the MCBC through their honesty, integrity, professionalism and service. This year, Beau Einheit, President of The Einheit Company has been selected as the 2014 MCBC Builder of the Year. Beau has been a member of the MCBC since 2010, and is the current Chairman of the MCBC Community Service Committee and this past year he served as the supervising builder for the Monster House project the MCBC is building in Sanford in conjunction with Real Radio 104.1 and Operation Finally Home.

Beau was chosen for Builder of the Year by his peers, twenty-two of the top custom homebuilders in Central Florida.

"I am greatly humbled and honored to be recognized as MCBC Builder of the Year by my peers. I would like to offer my sincerest gratitude to the Council for this award. The Builders represented by this group have been extremely generous with their time, support and friendship. The MCBC is a group that represents the "best of the best" and I'm so proud to do my part in trying to uphold those standards," says Beau.

Beau Einheit is a second generation builder in the Orlando area. His father, Bill Einheit, was one of the pioneers in the late 60's who brought his family to Orlando to be a part of the ever growing building industry. Having grown up in the "builder lifestyle", Beau watched his father build a wonderful company based on hard work and family. It was not uncommon to have the Einheit "clan" laying sod and installing plants as a house came to completion. That was Bill Einheit's way; give everything you've got.

Beau's interests took him to the University of Florida where he earned a Civil Engineering degree with high-honors. Wanting to construct and understand the science behind it was always in Beau's DNA. He took those talents to The Haskell Company where he quickly immersed himself in large commercial projects both as an engineer and project manager. The exciting scale and pace of the commercial world provided great knowledge, but Beau still had a deep desire to take what he learned back to the custom home market.

In 1999, Steve Cahill offered Beau Einheit a job as a project manager at Cahill Custom Homes. For 6 years Cahill provided the opportunity for Beau to build homes in Celebration, Wind Song, Baldwin Park and Lake Nona Golf and Country Club. Steve's mentorship and guidance far surpassed the knowledge of how to build homes. This opportunity laid the foundation for what you see today at The Einheit Company.

In 2004, The Einheit Company was formed and has since built many beautiful homes across Central Florida. According to Beau, "It's a blessing to do what you love and love what you do". Just like his father, it is not uncommon for the current Einheit "clan" to be sweeping out a house at completion. The values he learned growing up are being continued as a way to remember his late father and to carry on the tradition of building homes.
